TECHNOLOGY FOR CLEAN AIR

AFTERSALES INSPECTION CONTRACTS

ALWAYS ONE STEP AHEAD

CONCLUDE AN INSPECTION CONTRACT WITH SCHEUCH

- Intervals tailored to the needs of your plant
- Qualified, experienced Scheuch employees will examine how your plant is running and check it for leaks and damage
- The components will also be inspected for wear and tear to enable action to be taken at an early stage and to ensure the plant is working correctly
- Following the inspection, you will receive a detailed report about the status of the plant as well as suggestions for improvements

BENEFITS:

- Predictive maintenance
- No unscheduled shutdowns
- High plant availability
- Compliance with required maintenance intervals (specific to plant)
- Damage identified at an early stage
- Plant functions inspected
- Safety-related equipment (e.g. fans) inspected
- No need to shut down the plant
- Maintenance/repair visits optimized
- Time of maintenance work can be scheduled
- Maximize plant service lives (saving on costs)
- Scheuch creates tailored inspection plans and intervals for every plant
- Identify potential to save energy
- Compliance with operator obligations
- Price advantage compared to individual callouts
