TECHNOLOGY FOR CLEAN AIR

AFTERSALES SERVICES

CONTROL UNIT CONVERSION

THE OPTIMUM SOLUTION FOR EVERY APPLICATION:

Discover our current generation of control units: PulseMaster. They are reliable, efficient and ensure that everything runs smoothly.

A number of old control units have reached or are about to reach end of life, meaning that spare parts will no longer be available. To ensure that your operations continue to run smoothly, avoid downtimes and extend the service life of your plant, we recommend that you switch to our PulseMaster series – for simpler handling and a worry-free future.

End of life

- Mia
- Mia-EMC
- IST5
- IST6
- IST10
- IST10d
- IST10m
- IST10k
- ISTZ
- ISTBR

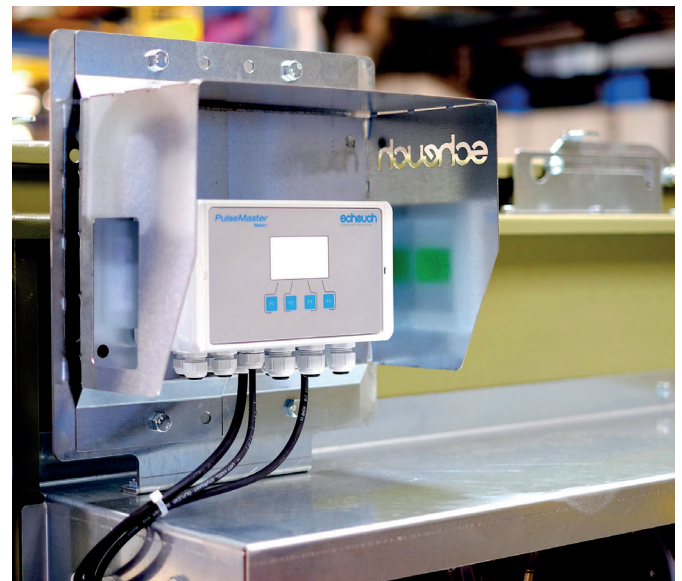

End of life as of 1st July 2024

- ISTBRi
- End of life:
- No longer available
 - No spare parts
 - No repair options
